

2019 SunSmart Endurance Championships – Saturday 26 October 2019 Sorrento Beach

Surf Boat Information

Start – 10.15

- Deep water start
- Sliding seats only (no rolling seats)

Surf Boat drop off (Scarborough Beach)

To drop off surf boats, enter via Brighton Road and head to the lower car park and then head north towards the Scarborough Pool.

At the end of the car park it is a left hand turn which takes you across the footpath and down to the Scarboro SLSC boat shed. Please take extreme care when crossing the promenade.

Once at the bottom there is enough room to turn around and drop boats at the bottom of the ramp.

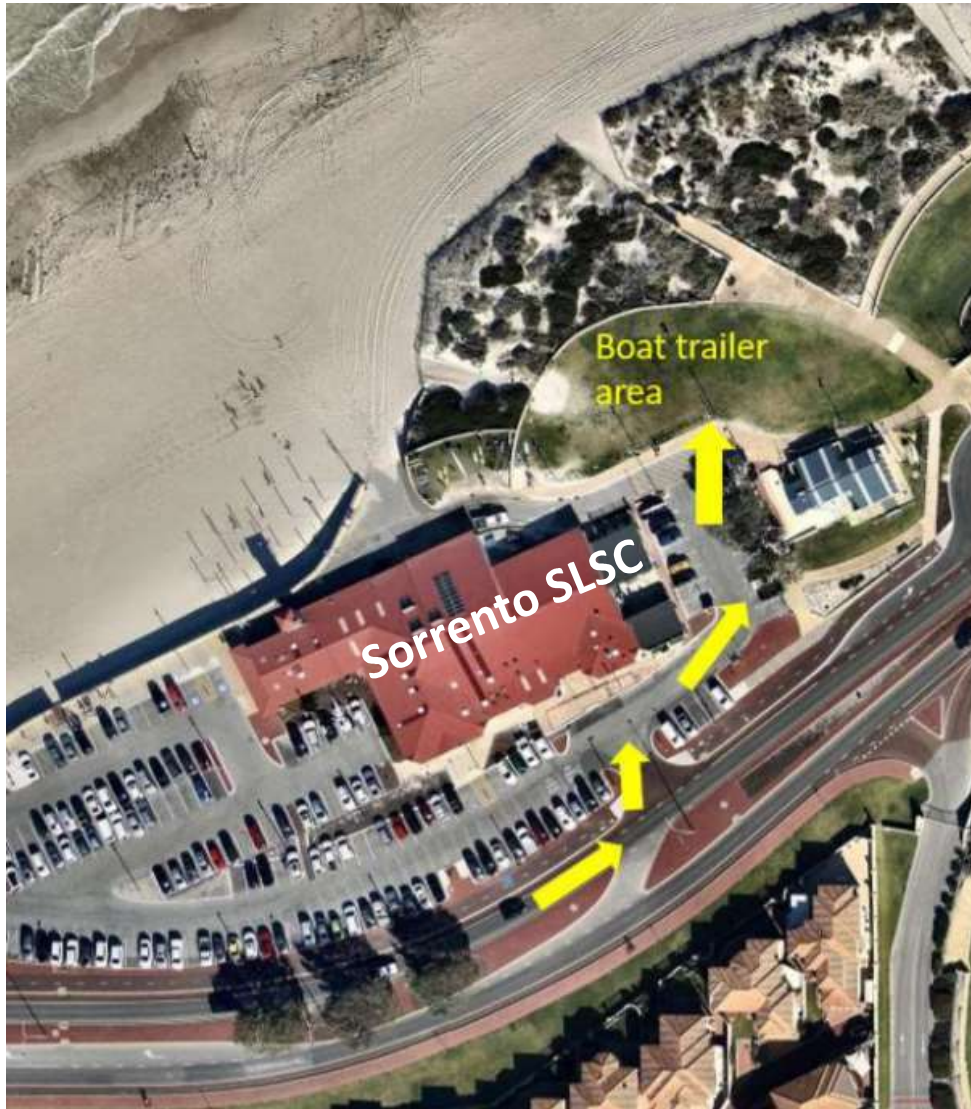

Cars are required to move on straight away to avoid a bottle neck of cars and trailers.

Please note that this access way outside the boat shed is an emergency access and must not be blocked.

Surf Boat Information

Boat Trailers at the finish

It is requested that boat trailers are dropped off on the grassed area just north of the Sorrento SLSC.

Trailers are to be disconnected and left on the grassed area. No cars are to remain on the grassed area after dropping off the trailer. You must park in designated car bays.

Trailers will be taken onto the beach by Sorrento SLSC. Once trailers are loaded they will be returned to the grassed area for clubs to pick up.

Surf Boat Information

Surf Boat Finish

The Surf Boat event starts at Scarborough. The event heads north. Surf Boats are to remain within 400 metres of the shore.

Finish line will be just north of the surf club boat ramp. The finish will be between 2 orange buoys. These are the same bouys as used at boat carnivals (not the large blow up buoys).

Once through the finish line crews are requested to continue forward through the enclosure and beach just north of the northern most groyne.

Boats can then be placed on trailers and Sorrento SLSC will return the boats to the grassed area ready for pick up.
